From the Manufacturer

TheaterMax
WITH LENOVO VR TECHNOLOGY

TheaterMax

The widescreen cinematic experience powered by VR technology built into K4 Note. TheaterMax helps you to convert all your favorite content like movies, TV series, youtube, etc. into virtual giant screen cinematic experience.

Optimum Performance

K4 Note is powered by a 64-Bit Octa Core processor and 3GB DDR3 RAM. With this kind of power and our software optimization, K4 Note handles all your entertainment and gaming needs without breaking a sweat.

Dolby Atmos Surround Sound

K4 Note has dual front firing speakers that are fine-tuned by Dolby engineers. These inbuilt speakers offer Dolby Atmos surround sound to complement the TheaterMax experience.

Media PowerHouse

We designed K4 Note with our customer's primary need in mind – Media consumption. K4 Note features the most advanced Wolfson 8281 Audio Hub. You can immerse yourself completely in an extraordinary auditory experience.

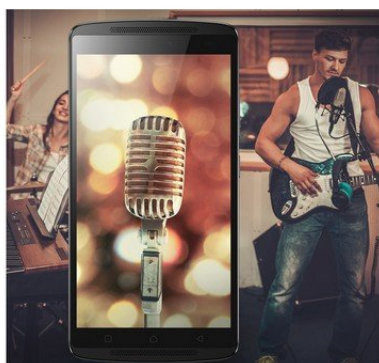

Vibrant Full HD Display

K4 Note comes with a 5.5" Full HD IPS Wide View display with 178° viewing angle. The screen sports 1000:1 contrast ratio and Lenovo Screen Color optimization. We have also added Gorilla Glass 3 for extra protection.

Enhanced Security

You can secure your K4 Note with the touch of a finger. The fast finger print sensor lets you unlock the phone in a flash. We have also built in handy gestures like triggering camera by tapping the finger print sensor. K4 Note also comes with NFC to help you with easy transfers.

Advanced Input and Recording

The VIBE K4 Note features an innovative 3 MIC system that works with Wolfson audio codec to filter out ambient noise and enhance sound input and recording.

Amazing Camera

With a 13MP rear camera and 5MP front camera, the VIBE k4 Note helps you capture precious moments in vivid details. The Rear camera uses industry's latest ISOCELL sensor with PDAF for super fast focus.

Upto 144GB Storage

The VIBE K4 Note has plenty of capacity for all your content thank to 16GB of internal eMMC storage. You can also add an additional 128GB Micro SD card to expand your storage.

Question: [did any one tried playing music through loudspeakers or bluetooth or headphone? any able to hear any hiss and crackling sound?](#)

Answer: If you are playing the music through a SD card, then please FORMAT your SD card once and copy the music files again to the SD card. Ideally seems to be the issue with File Reading. I had a crackling sound with music player due to the same issue, it was resolved after Formatting SD card. Try it once.

UI is not user friendly

By [nirmal christopher](#) on 5 July 2016

Colour Name: Black **Verified Purchase**

Build quality is good but bad UI. Difficult to identify the list if callers in phone book. Touch is good and finger print sensor doesn't work if your finger is sweaty. Gorilla glass is awesome I never used screen protector it's almost 7 months not even a scratch is seen on the surface. Speakers are front facing with awesome quality and no ganging issues so far. Good product from lenovo with a awful UI
